Monsieur le Docteur

Bordeaux le 10 avril 2025

SW/LF

Dear Doctor,

I am writing to provide a brief medical summary for Mr. John SMITH, a 42-year-old British national who is due to move to France shortly. Mr. Smith has been under my care at Riverside Medical Practice in Cambridge for the past three years.

He has presented with digestive discomfort, including intermittent abdominal pain, episodes of diarrhea, and reduced appetite. These symptoms have persisted for several weeks and appear to be worsening. He has no known allergies and no significant gastrointestinal history.

Mr. Smith does not speak French, so I trust you will be able to accommodate him in English or with appropriate support.

No additional investigations have been carried out ahead of his upcoming relocation. I thank you in advance for taking over his care.

Please do not hesitate to contact me should you require further information.

Kind regards,

Doctor Sarah WITMORE
